The Sea Breeze & Vicinity Water District is pleased to provide this information in conformance with New York State and EPA annual water quality report requirements. The statement includes information on water quality, quantity, treatment, conservation, and the Board of Health Department public education information.

### 2018 Annual Water Supply Statement

The Sea Breeze & Vicinity Water District is dedicated to providing clean, safe drinking water to its customers. The district is committed to meeting all regulatory requirements and ensuring the water it supplies meets or exceeds all State and Federal standards.

The Sea Breeze & Vicinity Water District was created to finance, construct, operate, maintain, and improve a water supply system for the benefit of the residents of Sea Breeze and the surrounding areas.

The District was originally created on March 30, 1964, upon petition of the residents filed during the previous month. The layout of the District and the water-supply system was submitted to the State of New York in April 1964, and approved by them. A charter was granted and the District was officially formed. The District has three elected non-political Commissioners, separate from the Town Board, and their terms of office staggered in length.

### Water Quality

#### Drinking Water Sources

- Lakes, reservoirs, rivers, streams, and wells

- Water travels over land or through the ground, it dissolves naturally occurring minerals and can pick up substances resulting from animal or human activity.

- Contaminants that may be present in untreated water include inorganic substances such as metals, radioactive elements, and microorganisms or pathogens in water.

- Additional information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency’s Safe Drinking Water Hotline at 1-800-426-4791 or the Monroe County Health Dept. at 855-753-5057.

### 2018 Annual Water Quality Report

**Water Quality Report**

- The Sea Breeze & Vicinity Water District was created to finance, construct, operate, maintain, and improve a water supply system for the benefit of the residents of Sea Breeze and the surrounding areas.

- The District was originally created on March 30, 1964, upon petition of the residents filed during the previous month. The layout of the District and the water-supply system was submitted to the State of New York in April 1964, and approved by them. A charter was granted and the District was officially formed. The District has three elected non-political Commissioners, separate from the Town Board, and their terms of office staggered in length.

- **Water is that used within the District is purchased from the Monroe County Water Authority.**

- A complete staff is maintained 24 hours a day and is fully equipped to handle any emergency. The Commission is constantly seeking ways and means of furnishing adequate pure water for all domestic and fire fighting needs as economically as possible.

#### 2018 Data Summary

**Sea Breeze & Vicinity Water District**

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Free Chlorine (mg/L)</th>
<th>Turbidity (NTU)</th>
</tr>
</thead>
<tbody>

Some people may be more susceptible to disease-causing microorganisms or pathogens in drinking water that the general population.
Sea Breeze & Vicinity Water District

WHY SAVE WATER AND HOW TO AVOID WASTING IT:

Although our system has an adequate amount of water to meet present and future demands, there are a number of reasons why it is important to conserve water. For example:

Saving water saves energy and some of the costs associated with both of these necessities of life.

Saving water reduces the cost of energy required to pump water and the need to construct costly new wells, pumping systems and water towers.

Saving water lessens the strain on the water system during a dry spell or drought, helping to avoid severe water use restrictions so that essential fire fighting needs are met.

You can play a role in conserving water by becoming conscious of the amount of water your household is using and for looking for ways to use less whenever you can. It is not hard to conserve water. Conservation tips include:

Automatic dishwashers use 15 gallons every cycle, regardless of how many dishes are loaded. So get a run for your money and load it to capacity.

Turn off the tap when you are brushing your teeth.

Check every faucet in your home for leaks. Just a slow drip can waste 15 to 20 gallons a day.

Check your toilets for leaks. This can be done by putting a few drops of food coloring in the tank watch for a few minutes and if the color appears in the bowl then the toilet is leaking. Toilets can lose up to 100 gallons a day from these invisible leaks. Fix the leak and you be saving up to 30,000 gallons in one year.

Use your water meter to detect leaks. Simply turn off all taps and water using appliances in the evening before bed and take a meter read. When you wake in the morning get another reading and see if the amount has changed.

SYSTEM IMPROVEMENTS:

In 2018, we installed a new Aerial water main under the Ridge Road overpass to replace an old water main that previously ran under NYS Route 104. The District also replaced numerous water services and changed numerous non-registering meters.

In 2019, District improvements include: Replacing 25 water services as well as looking to replace older valves throughout the District. This will be done in an effort to isolate smaller areas of the District in the event of an emergency shut down.

DESCRIPTION OF SERVICES:

Below is a list of services that the Water District provides its residents at no cost. Most other water districts charge for these services.

<table>
<thead>
<tr>

SERVICE CALLS:

The Sea Breeze & Vicinity Water District will make every attempt to cater to a specific time that you would like one of our service people at your home. We know and understand that we all have very busy schedules and making a customer stay home for upwards of half a day (like many other utility companies) waiting for a service person is not acceptable. We are very proud of the customer service that we are able to provide.

CLOSING:

The Sea Breeze & Vicinity Water District has always prided itself on outstanding customer service. We ask that if any resident has any issue that needs to be addressed that you contact the District directly. As part of an ongoing commitment, the Board of Commissioners is constantly seeking ways to cut costs to the District residents. It is District policy to use District personnel when we can for all improvement projects saving the District revenue. In order to keep our rates in check, it’s important that the meters are read on a regular basis. It is important that after receiving your read card in the mail that the meter is read promptly (within five days is preferred). You can call in your reading or enter it on line as well.

The Sea Breeze & Vicinity Water District would like to thank you for letting us continue to provide your family with quality drinking water. We ask that all customers help us protect our water resources, which are the heart of our community. If you have any questions about this report or about your bill, please call our customer service department at (585) 467-6341 or check the web site at www.seabreezewater.org

Thank you,

Lindsay Putnam
